

SleepGuardian

In-Office General Anesthesia by Physician Anesthesiologists

The office procedure experience patients prefer...
No discomfort, No anxiety, and No fear!

Review

“I just wanted to go to sleep and not feel anything during the procedure.

SleepGuardian made that possible, and I wouldn't do it any other way!”

Jennie,
SleepGuardian patient

Review

“With SleepGuardian I felt relaxed and safe. I spoke with them the night before, my questions were answered, and it made me very confident in their care.”

Sophia,
SleepGuardian patient

What is SleepGuardian?

Physician Anesthesiologists delivering hospital quality general anesthesia in the dental and medical office settings to remove patient discomfort, anxiety, and fear from procedures.

Teresa Roberts, MD
SleepGuardian Physician Anesthesiologist

Who is a Physician Anesthesiologist?

A medical doctor with the most comprehensive anesthesia, airway, and emergency management training. A physician anesthesiologist reviews health history information to determine if a patient is eligible for SleepGuardian.

How many patients have experienced SleepGuardian?

Over 30,000 patients treated in an office setting.

Why do dental and medical professionals use SleepGuardian?

SleepGuardian uses the same equipment and techniques as a hospital to create a safe and comfortable environment in the office. Patients have the desired, deep sleep experience under the care of a board-certified anesthesiologist, and dental and medical professionals can focus solely on performing procedures.

Cascades Center for Dental Health is a **SleepGuardian** Center!

“Thanks to **SleepGuardian**, many patients can have full-mouth tooth replacement in one day. This is the most efficient and best experience for patients

SleepGuardian physician anesthesiologists bring hospital quality anesthesia and safety to my office.”

Dr. Shreyesh Ruparelia
